

Dr Hisham Abdalla

Beautiful You spoke with Dr Hisham Abdalla of the Laser LifeCARE Institute, who kindly donated his time and expertise to Kelly. Dr Hisham prides himself on providing cutting edge, minimally invasive cosmetic services within his dental spa located in Auckland's CBD.

Having a great smile means harmony between the shape, size and colour of your teeth, gums, lips and face. In Kelly's case, she actually had beautiful lips, very healthy gums and teeth that weren't too dark. However they were short, wide, lifeless and too smooth.

This meant that the line of her teeth had become too flat, instead of following the curve of the lower lip line. Kelly also had a facial discrepancy due to grinding in her sleep. To correct this, I injected Kelly with Dysport™, an Appearance Medicine procedure, to create an aesthetically pleasing and symmetrical face.

After thoroughly checking and monitoring Kelly's general oral health, Kelly received a laser gum lift, creating harmony between her gum levels. This treatment is non-aggressive using a laser, as there is no bleeding and virtually no pain involved. A revolutionary procedure compared with conventional methods.

Kelly had received composite veneers 10 years previously. Within the same appointment, I removed

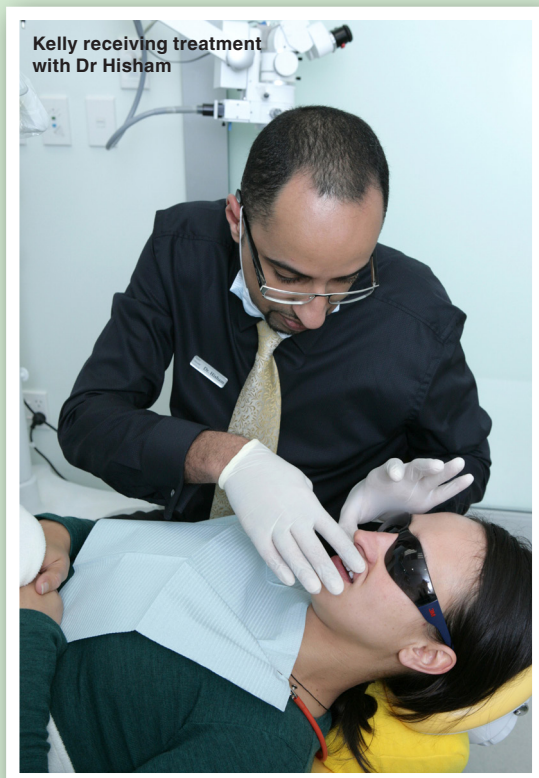

Peter & Dr Hisham Abdalla

these micro-surgically for higher precision. Kelly's teeth were refined and moulds were taken. Custom-made temporary veneers were fitted, for Kelly to test how she felt about their appearance and shape, as well as if her speech was affected at all. The shape immediately suited her and she was comfortable speaking. Kelly had these for two weeks while we waited for her hand-made porcelain veneers, crafted by Dental Technician of Zircontech, Peter Ovari.

In Kelly's second appointment, her temporary veneers were gently removed, teeth thoroughly cleaned and the new veneers were tested with Kelly's input for final approval. Then, the most important step – I very carefully bonded Kelly's hand-made porcelain veneers onto her teeth.

Kelly has been an absolute pleasure to work with. She is a wonderful person and deserves this present of a gorgeous new smile. I am very pleased with Kelly's results! 🦷
