Dinner included on
Friday Night at the
Fabulous Auckland
Viaduct"**

"Hisham's genius vision 10 years ago that we'd all be using lasers in dentistry by 2012 is so true.

Their use is becoming very widespread now. His courses, of which I've attended two, are invaluable to any laser user at any level. I bought a laser in the 90's but without training it was futile.

Hisham's commitment to training and mentoring colleagues is exceptional"

Dr Ted Bealing, Auckland

Programme

Friday Morning Session:

Why lasers and why now? The philosophy behind lasers and high tech equipment in today's modern dental practice.

The value of a laser for a General dentist, Specialist or Hygienist/ therapist.

Laser science, safety and differences between laser wavelengths. Preparation for the Queensland University Laser Safety Examination.

This is the only approved professional laser certification in Australasia. It is compulsory for all Queensland and WA dentists and highly recommended for all other Australian and New Zealand Dentists, specialists hygienists and therapists.

Friday Afternoon Session:

“Soft Tissue” vs. “Hard Tissue” lasers. What are the differences and relevant applications. When can they do the same thing and when does each stand out. When do they work in combination?

Clinical applications and settings with different lasers. Laser Restorative, Lesion tracking and Surgical applications

Hands-on training on extracted teeth and soft tissue-like materials

Queensland University Laser Safety Certification Exam (45 minutes—extra fee to sit this exam)

Evening GROUP DINNER on the fabulous Auckland Waterfront

Saturday Morning Session:

LIVE patient laser procedures, performed by Dr Hisham under surgical microscope

Advanced Surgical procedures

Laser settings for different clinical procedures

Saturday Afternoon Session:

Advanced Laser assisted periodontal, implant & endodontic protocols

Advanced Laser assisted Cosmetic & Full mouth rehab dentistry

Laser applications in Orthodontics

The future of laser and high tech dentistry, where is it all going?

“ Hisham is an inspiring young dentist who embodies excellence. He is truly a leader in the profession and I have no doubt that he will continue to be a significant influence in the Australia New Zealand region. “

Prof Laurence J Walsh,
University of QLD

Live
Patient Laser
Demonstrations

As a periodontist and a university lecturer, I was very impressed with Hisham's advanced laser course. The relevance and quality of the material presented was excellent and his passion for the subject rubs off on the attendees in an unparalleled way.

Dr Jake Goldenberg,
Periodontist, USA

“Hisham, I have not walked out of a course so excited for a long time. I don't need to tell you the mind-shift I have just been shown. Thanks Very much for sharing. I have both lasers (diode and Erbium) going now. They really improved my patient care, healing is exceptional. My first one appt perio patient was back today as per your protocol, NEEDING NO FURTHER TREATMENT. My hygienists are squealing with excitement & I'm like a kid with a new toy!”

Dr Malcolm Cooke,
Sydney 2011
